

TSi MOTION ENGINEERED SYSTEMS

Manufacturers' Representative

Nordex, Inc.

Brookfield, CT

www.nordex.com

Family owned and operated for 60 plus years. Manufacturer of precision mechanical components and assemblies to meet your power transmission needs. We also offer precision machining to customer prints in a wide variety of materials. Engineering design and support is available from our engineers that specialize in gear design whether it is for a custom gear box or a high level precision sub-assembly. High mix short run or large quantity blanket orders- we can support your requirements.

PBC Linear

Roscoe, IL

www.pbclinear.com

A trusted U.S. manufacturer that delivers advanced linear motion products for emerging industries and demanding applications. We design and produce precision machine components—including linear bearings, guides, actuators, miniature ball screws, inch and metric lead screws with nuts that support high-performance automation, robotics, and medical equipment. We also offer plain and bearing based linear actuators with a wide range of drive options, load capacities and travel lengths. PBC Linear continues to drive innovation, providing reliable, customer-focused products for global markets.

The logo for FATH is a white circle containing the word "FATH" in a bold, black, sans-serif font.

FATH®

FATH, Inc.

Orlando, FL

www.fath24.com

Global manufacturer offering a variety of components in the area of hinges, handles, quarter turns and gasketing for cabinets and industrial enclosures. Engineered hardware that is used in the assembly and operation of aluminum extrusions for machine framing and custom assembled structures.

Kuroda Jenatec, Inc.

Kennesaw, GA

www.kurodajenatec.com

Leading manufacturer of precision ball screws offering diameters from 5mm - 125mm. We provide an option of various precision grades, rolled, whirled and precision ground along with a variety of nut configurations.

SBC Linear

Manufacturer of precision profile rails and blocks offering ball bearing and roller bearing block options. Miniature sizes starting from 7mm to 15mm available. Stock located in our facility in Kennesaw, GA.

The logo for Modern Linear features the words "MODERN LINEAR" in a bold, white, sans-serif font inside a black oval.

MODERN LINEAR

Modern Linear

San Rafael, CA

www.modernlinear.com

Manufacturer of V Guide roller and track systems delivering smooth, fast, quiet and high durable performance. We offer 6 sizes of V Rollers along with both single and double edge track options in steel, stainless steel or with a special coating if required. Linear and rotary V Roller bearing and track systems available. Our mission is to provide high-quality, long lasting products backed by outstanding customer service.

www.tsimotion.com

Applied Motion Products

www.applied-motion.com

Morgan Hill, CA

Founded in 1978, we are a leading manufacturer of motion control components for OEMs. We design and build high-performance motors and drives for applications requiring precise control of position, speed and torque. Integrated motors, stepping motors and stand alone drives.

Smith Bearing

www.smithbearing.com

Garwood, NJ

Manufacturer of cam followers (needle rollers) and load rollers in metric and inch sizes. Offered in steel and stainless steel as options for corrosive environment. Smith trax load rollers and mating rails available from stock.

GÜDEL

Güdel

www.gudel.com

Ann Arbor, MI

Since 1954, Güdel has been a global leader in automation and motion solutions, providing high-precision components and customized systems for manufacturers worldwide. Products include linear roller guides, racks and pinions, gearboxes, robot tracks, gantry systems, and complete automation solutions. Güdel delivers reliable, innovative technology for demanding industrial applications.

TKD KABEL

www.tkd-kabel.de

Nettetal, Germany

A global leader in cables, ready-to-connect cable systems and accessories, serving nearly every industry. From control, data, and high-flex dynamic cables to spiral, coax, servo and woven ribbon cables. We offer standard and custom solutions—everything cable-related from a single source.

Orange County Thermal Industries (OCTI)

www.teamocti.com

Universal City, TX

We provide custom thermal insulation and sound attenuation solutions for a wide range of industries. We deliver high-quality products backed by exceptional customer service. From removable insulation blankets to permanent metal shielding, we design custom-fit solutions to meet your specific needs.

Chambreland Industrial Slides

www.chambreland.com

Quebec, Canada

Market leader in design and manufacture of industrial heavy duty telescoping drawer slides. Wide variety of lengths and load capabilities available from stock. Partial extension, total extension and over extension available in steel, stainless steel and aluminum.

Amacoil, Inc.

www.amacoil.com

Aston, PA

Using rolling ring traversing drive units, used in wire-spooling applications. Positioning linear drive nuts.
